BRIEF SUMMARY OF CONTINENTAL BUILDING COMPANY

Continental Building Co.'s (CBC) history is unique. We were founded by Continental Real Estate Companies (CREC), one of the nation's most revered and successful development companies with more than 20 million square feet and \$2 Billion in multiple asset classes. In 35 years, CBC has grown and evolved dramatically, reaching annual revenues of \$275 million, investing in our people and the most effective technologies for communication and construction—while spanning geographically from coast to coast. We work with national developers and private clients to build facilities that affect lives daily... places where people live, work, stay, and shop.
